

MOW-MM 152 (Matev)

The Matev MOW-MM 152 mid-deck mower is designed for use with the CX 2510 tractor:

- 152cm / 60" cutting width
- Mulch insert, rear or side ejection, optionally with classic side extraction.
- Suction integrated into the mower, for almost border-less mowing on both sides.
- Four caster sprung guide wheels.
- Attachment by driving over the mower, or inserted sideways using the new Matev quick-change system.
